Chris-

Here is a revised working draft. This includes additions from Kathy and me. As mentioned this AM, I added in the QA language that we used per Ginny in the WOTUS work assignments. I also added some background on the 404(g) rulemaking and ESA FRN up front, and updated the public comment task to break out the ESA FRN from the 404(g) comment support. You may still need to update some things based on our discussion this AM, as well as the schedule of deliverables.

I think Kathy is also going to send us some thoughts from Pat on tribal outreach to consider.

Thanks!

Ruth
